

West Towson Elementary School

presents

Building Self-Confidence & Discouraging Bullying

Picture This: Using Flashcards to Teach Your Child Important Concepts

Suzanne Ricklin, LCSW-C, BCD,

Tuesday, November 16th 7:00 pm - 8:00 pm

Psychotherapist, Educator and Creator of In Vision Concept Cards, Suzanne Ricklin will discuss how flashcards can be used as a creative technique to help parents and children explore and remember important life skills, themes and concepts such as building self-confidence, shaping self-esteem, and discouraging bullying.

For over 25 years, Suzanne has provided counseling and psychotherapy for children, adolescents and their families. A former elementary school teacher, she experimented with adding a visual element to her therapy work...one card at a time. Suzanne will explain the role color and visual cues can play in helping us learn, understand and recall complex concepts. She will demonstrate how these cards can be used as an educational tool - not only in therapy, but in school or at home and can be easily be adapted according to subject matter and different age groups.

Bring your children to this interesting and interactive presentation; *they'll remember...and have fun!!*

Light refreshments will be served following the program
